(r) indicates that the Board Member has resigned prior to their term ending

Currently the Greenhouse Project is located on the 7th floor of Hall Building, while the industrial storage area on the 13th floor is renovated.

Historically the Greenhouse was located on the north-west corner of the 13th floor Concordia's Hall Building, 1455 de Maisonneuve West. As we work towards our future, we ask the student body and staff to bring forward their words of support and hopes for the semesters to come.
